27, 1947—EDMONTON BULLETIN

BY ELMORE PHILLIPOTT

The emergency money agreement between the U.S. and British governments is a good sign in the eyes of many Canadians.

In effect the U.S. agrees to pay in pounds sterling for the goods and services that the United States will either buy or sell to Canada. The big changes from the current production in Britain, however, are the big investments in U.S. goods and services.

The British government will compel Canada to buy U.S. goods on a basis of trading goods and services. We have

and Prime Minister Kennedy. Roosevelt's plan to buy U.S. purchases in Canada and sell them in the U.S. is harder to work out as effectively as an arrangement that would allow the U.S. to buy British goods.

The lesson is simple. The U.S. has to go on selling Canada around \$160 million worth of goods and services. The U.S. will have to plan to buy much more from the U.S. than the U.S. exports.

The extra purchases need not be in actual commodities which would compete with U.S. products. There could be planned U.S. investments in Canada running hundreds of millions per year. Expenditures by students and tourists on temporary residence could

What Happened to Sterling?

The Chancellor of the Exchequer pointed out in his short speech to the nation that the Government will continue the arrangement under which the heavy burden of the foreign exchange shortages of so many other countries is simply shifted onto our shoulders.

Mr. DALTON showed how this burden had been shifted onto the shoulders of the working class during August and September when the Government had to pay the enormous sum of \$176,000,000 for the purchase of

chances of a much more varied nature and they must now cut down again on the necessities of life.

The big question mark today is the Argentine. That country has been the mainstay of our commerce and it may be that faced with the choice of inevitable sterility or the loss of the Argentine, Peru's government will try and bluff it out. Britain's best radio programme is the Argentine.

In the British view, the present decision was the only alternative to the one which would have

What Europe and our own Britain as well is in part its own house to build. The reconstruction of the Continent - wide reconstruction and in this regard Mr. Morrison's statement is not only the most heartening; and worst harder as well.

But while all this is being done the flow of food and materials to the British people cannot be maintained. "We do not want the United States to pull a fast one on us," said the Government authority this morning, "we want

1950. In two days, August 18 and 19, the dollar fell 10 cents to \$20.93, a further \$60,000,000 was lost.

Instead of holding their sterling and translating smaller amounts into dollars over a longer period, the majority of countries with sterling agreements were forced to dump their sterling reserves. The run on the loan has

believe that the technical position of sterling will be greatly strengthened as a result.

It is a well-known fact that it is a British view—that the financial bargaining power lost when the Anglo-American loan agreement fixed the date for convertibility has

"As a result of the recent

it must be a big one."

THE ERROR HAS not been concealed. There has been a series of misstatements which have been the negotiation of the Anglo-American loan. The biggest by far was the belief or the hope inherent in the loan and in much U.S.

Smiles

The new vicar had preached his first sermon, and a critical member of the church, an exceedingly fat man, waylaid him after the service.

"Not a bad beginning, sir," he said, patronizingly; "a bit too scientific and modern perhaps, but quite fair. Remember, parson, you must lead the church."

"The vicar surveyed his bulky critic and replied, 'My dear man, it's exercise you need, not food.'"

"'Madam, your dog has bitten a piece out of my leg.'"

"'Impossible! The little darling simply hates meat.'"

"I must know the name of your

U.S. DOLLARS
Editor, Bulletin.—In view of the pressing need at the present time for United States dollars to purchase necessary items of import from that country, it amazes me to

into the stores and see so many articles marked "Made in U.S.A." articles which, prior to the war, and, the Southam Company, Limited, Proprietors, and by Charles E. Campbell and W. A. MacDonald as publishers.

Vegeville Golf Event Planned for Week-End

VEGEVILLE, Aug. 27.—Annual open golf tournament, sponsored by the Vegeville Golf Club will be held over the Labor Day week-end, Aug. 28 and Sept. 1. All entries must be in the hands of Secretary Archie Little not later than 8.30 a.m. Sunday.

QUALIFYING ROUND OF 18 holes will commence on Sunday morning with the first shot being teeing off at 9 o'clock. The championship flight will be of medal play and all other events will be match play.

The course is reported in excellent shape from recent rains, and will be helped by the greens and fairways considerably and President H. D. Burger is looking for a record entry.

This tournament has always produced good golf and keen competition in past years and another exciting tourney is in the offing.

Wins Scholarship

ROCKY MOUNTAIN HOUSE, Aug. 27.—Mrs. Margaret MacLean, the winner of the JODE scholarship given to the Rocky Mountain House girls' school, making the highest mark on the departmental grade nine examination. Others passing the exams were: Robert Stronach and Victor Wilson; with B. standing out in the top of the class. Gladys Holgerson, George Hume, Dorothy McDonald, Rosanna Mortimer, Henry Dora, Jack Oshin, Ina Sinclair, David Thompson, Helen Steffen, John Walker.

Leave Athabasca

ATHABASCA, Aug. 27.—Cpl. Abraham of the RCMP, has been transferred from Athabasca to Fort Smith and has left with his wife and two children for his new post. E. L. Erickson is temporarily in charge of the detachment here.

Mr. and Mrs. G. S. Lewis and Mrs. W. A. Blacklock of Athabasca have returned from a trip to Seattle.

Mr. and Mrs. Carl Hamilton left here recently for Seattle, Wash. after visiting with Mrs. Hamilton's aunt, Mrs. Kate Lewis. It was Mrs. Hamilton's first visit to Athabasca in 33 years.

J. W. Adair arrived at his home here recently after a vacation trip to many points in Alberta.

Colin Shaw, who was one of the aid camps to pass flying tests in Edmonton recently, has returned to his home here.

To Take Vote

BASHAW, Aug. 27.—Voting on the proposed municipal hospital for Bashaw, will take place on Nov. 1. Mr. Hunter has been appointed returning officer for the voting.

Leduc was over Bashaw Major 54 recently in a playoff game here.

A gladiolus contest, sponsored by the Leduc Ladies' Auxiliary, is being held here. Purpose of this contest is to promote interest in the fall flower show.

P. Ruffan has been appointed president of the school board here and will soon arrive to take up residence.

Walter Blanche returned to Bashaw with his combine from harvesting in the United States. He found the crops good in Kansas, but that the weather caused delays.

Bashaw Sports

BASHAW, Aug. 27.—Bashaw Moose sports day was held recently but some of the events were cancelled due to rain. A fine parade program and a dance in the evening was well attended.

Mr. and Mrs. Richard Schultz and William Skudera returned to Bashaw recently from a five-weeks trip to the United States.

Return to Calmar

CALMAR, Aug. 27.—Mr. and Mrs. C. Blundin and Mr. and Mrs. Francis Blundin returned during the past week from a trip to Banff and Yellowstone National Park.

Mrs. Thelma Rold has returned to her home in Wainwright, after visiting friends in the Calmar district.

Mrs. Eugenia Wasmata, nurse in training at the University Hospital, returned to her duties after spending a three-week holiday at the home of her parents.

Mr. and Mrs. Tim Hoffman and family of Barbours were Sunday visitors in Calmar.

Mrs. R. Kulu had a surprise visit from her two daughters, Mrs. J. M. Balcan and Mrs. W. Balcan, and Winnie and Mrs. W. Balcan, and her daughters of Vancouver.

Mrs. W. Dunn visited her son Keith in Calmar during the past week.

Pioneer Dies

ATHABASCA, Aug. 27.—A funeral service for the late Mrs. Charles Gopple, who died recently, was held in the St. Gabriel's Church. The Rev. Father Flader, assisted by Rev. Father Scullion, officiated and burial was in the Athabasca Roman Catholic Cemetery.

Mrs. Gopple was born in 1879, and had lived all her life in Alberta. Her husband had farmed for many years in the Parkhurst district and the two had moved to this town.

She is survived by her husband, one son, Joe of Parkhurst; two daughters, Mrs. Harold Liver of Jarow, and Laura of Athabasca.

Calmar Man Hurt
CALMAR, Aug. 27.—An unusual accident occurred here recently when Edwin Lindberg was crushed under a car which had fallen over the bank while he was passing it. He was alone in the garage and it was some time before the accident was discovered. He was rushed to an Edmonton hospital.

May Run Show
MANVILLE, Aug. 27.—A demonstration of the new motion picture projectors was given at the last meeting of the Manville Board of Trade, held in the Orange Hall.

And the Pilot Walked Away

The feasibility of the board purchasing the necessary equipment to run a regular show in Manville was discussed at the meeting and a committee was formed under the chairmanship of Dr. Hainforth to deal with the matter.

There has been much building activity in Manville during the summer and a number of new homes are completed or nearing completion.

Farewell Gathering
PERINTOSH, Aug. 27.—Farewell party for Dr. Butler, who is soon leaving for Pontiac, Michigan, was held at the Church of God on Sunday afternoon. He will finish his high school at Pontiac and take special view course.

He is scheduled to sing at a Youth for Christ meeting soon to be held in Detroit. He will be a guest of Mr. and Mrs. Paul Street while in Pontiac.

The Rev. O. E. Bean made the presentation on behalf of the 60 guests at the farewell.

Miss Alma Gering of Edmonton was a week-end guest at Mr. M. F. Smith. She spent a day at the phone operator at one time in Edmonton.

Mr. and Mrs. Louis Plam of Edmonton were week-end guests of Mr. and Mrs. William James.

Miss Joan Richmond of Carstairs is a week's guest of Mr. and Mrs. Ernest Fausch.

Chester Hammen and Lester Hammen, twins from Hollywood are here visiting relatives and friends, including their cousin, Dr. Bill Butler.

Adjournment came before the delegates could hear speeches by Mr. and Mrs. William James.

JOHNSTONE WALKER LIMITED

The Book of Knowledge

(Department: Wonder Questions)

Finally, the flattest is proved by actual measurement. If the earth were a perfect sphere, its circumference in any direction would measure the same. A circle is divided into 360 parts, and degrees and degrees on a perfect ball are equal in length. When the degrees of latitude on the earth's surface are measured, they are found to be longer as we get nearer the Poles. We know where we have traveled through one degree of latitude measured along a meridian of the earth, for such a distance causes a difference of one degree in the altitude of the Pole Star. These degrees of latitude are found to be longer as we get nearer the Poles. At the Equator a degree is 69.3 miles. This is conclusive proof that the earth is flattened to ward the Poles.

HOW DID WEDDING RINGS BEGIN?

Most people who study the customs of long ago agree that the wedding ring was used first in the days when men used to own their wives. It was customary to put a chain on a slave to show that he had an owner. After a time, instead of actually putting anything like chains on their wives, men believed something that would have the same effect. We now believe that the wedding ring began as a symbol meaning that the wife was the husband's property. It is a symbol of a husband's devotion to his wife.

Another proof of the flattened shape of the earth is the fact that as one approaches the Poles the rate of gravitation is found to increase. Suppose a 100 lb. scale could be built, with a pound weight suspended directly over the scale at the Poles, and another pound weight hanging over the Equator. The scale over the Pole would drop. The reason is that the center of the earth, which the force of gravitation acts, is nearer the surface at the Poles than it is at the Equator. The difference is only a little, but still it is great enough to make the scale over the Pole register, to check the parish register, that she was a centimeter.

Sask. Endorses N.S. On All Suggestions

WINNIPEG, Aug. 27.—(CP)—Antagonism between the provinces of Saskatchewan and New Brunswick for annual Dominion conferences and consultation with the provinces in Canada-Newfoundland confederation discussions.

Admission of Newfoundland to the Dominion was a matter of profound national concern, and the provinces, as signatories of the confederation, should be consulted. He said the Saskatchewan government had received no definite answer to the Dominion's proposal for immediate Dominion-provincial confederation.

"Our highway program, our health services program and our housing program are being held up because the Dominion will not give us the money we need," he said. "The Dominion is going to be a great help to us."

100 FOR CURE
KING'S CLIFF, Northamptonshire, England—(CP)—To make sure the new France was not motivated to her native village, the French government, to check the parish register, she was a centimeter.

May Run Show
MANVILLE, Aug. 27.—A demonstration of the new motion picture projectors was given at the last meeting of the Manville Board of Trade, held in the Orange Hall.

Wheat Price Boost Good News for West

OTTAWA, Aug. 27.—(CP)—Good news for Canadian wheat growers came yesterday as sunshine on a crop which now is being delayed by rain throughout the prairie provinces.

The news was an announcement by Trade Minister MacKinnon that the government has decided to recommend to Parliament an increase in the amount of wheat to be sold to the United Kingdom in the initial wheat year paid to Western farmers.

Boosting prairie farmers' hopes further was a dispatch from London which said it was expected Canadian food exports would recommend an increase in Canadian wheat to more than \$2 a bushel compared with the \$1.50 rate for the first two years of the Canadian-U.K. wheat contract signed last year.

The news came as the Dominion Bureau of Statistics, in one of a series of crop reports, reported "very considerably" lower grain yields in Manitoba and Saskatchewan. The weather had seriously delayed harvesting in Saskatchewan and Alberta.

ALTHOUGH the amount of the increase in initial wheat price was not determined, Mr. MacKinnon said it would be retroactive to the 1945 crop. Under the present agreement it might be as high as 20 cents a bushel. The higher price, effective as soon as approved by Parliament, would apply to the crop years of 1945 to 1946 inclusive.

Present initial price is \$1.33 a bushel on the basis of No. 1 Northern at the Lakehead or Vancouver.

Payment on the basis would begin "as soon as physically possible" after Parliamentary approval had been given, Mr. MacKinnon said.

"A higher advance to farmers is possible because of favorable prices received by the Canadian Wheat Board on sales to date and because of the guarantees and other provisions contained in the United Kingdom wheat agreement applicable to the balance of the present crop and also to the 1946 and 1947 crops."

"THE AMOUNT of the increase cannot yet be decided, depending on a large part upon the size of the present crop and developments in the market situation here and the assembling of Parliament, but an increase will certainly be recommended."

The Board's method of handling wheat is to buy the Western producer an initial price—currently \$1.33 a bushel—for wheat sold to the United Kingdom at a fixed price of \$1.33 and to other countries at world rates, now around the \$2.50 mark.

The difference between the initial price and the selling price is placed in a pool, from which the farmers periodically are given a share in the profits by way of participation certificates distributed on delivery of their wheat. The increase will be paid out of the accumulation in this pool.

THE CANADIAN government under the 1946 contract, has undertaken to sell British 600,000 bushels of wheat over a four-year period at fixed prices for the last two years of the agreement. The price for the first two years, 1946-47 and 1947-48, is \$1.33 a bushel, but the London dispatch indicated Canada will ask for a higher price in the third year of the contract.

Floor price for 1948-49 was established at \$1.52 a bushel, with the actual price left open for negotiation. The London report said:

Theatre Group Hears F. Holroyd

The workshop of the Edmonton Community Theatre, at 8800 102 avenue, recently was the scene of another gathering of the Understudy Club.

The club had as its speaker Frank Holroyd, who discussed the things to consider when planning to stage a production.

Another meeting of the Understudy Club will take place tonight at 7:30 p.m. at the Workshop, at which time work will be started on the fall and winter program.

Mechanic Injured When Car Falls

Albert Preneval, 44-year-old mechanic of the Edmonton Auto Spring Works, 85 street and Jasper avenue, who came to the city about one week ago from St. Paul, was taken to the General Hospital Tuesday afternoon, suffering from ribs and numerous bruises, when it is alleged that an automobile fell on him.

It is said that Mr. Preneval was working on a motor vehicle, which was in the air on a hoist and chain, at the chain broke. He was taken to hospital in Smith's ambulance.

Hospital officials reported that he is progressing very favorably.

Safety Driver

—Photo by William Knott

Mike Yutuck, Suite 8, Arcade Block, who was awarded ten gallons of gasoline by the Edmonton Safety Council this morning. In his chance for a new tire, he scored the possible 100 points in driving performance, answering traffic rule questions and explaining operation of his car.

He praised the United Kingdom austerity program.

"I think many things are being produced and money spent on them that we would be as well off without," the minister said.

"WE SHOULD HAVE more money spent for food production and less spent for luxuries. Our animals are food, clothing and shelter. We should consider them first with defence taken into account shortly after."

"I would do us to harm if we were to spend more time reading the sermons of Knox and Calvin and not accept the task of spending ourselves into prosperity, as has been suggested several times here."

"The United Kingdom has tried to follow some of these lessons. It accepts austerity right after war, instead of having some spending program followed by more austerity."

Gardiner Praises U.K. Program Essentials Should Be Considered First

GENEVA, Aug. 27.—(CP)—Agriculture Minister Gardiner of Canada said in a blunt speech before the food and agriculture organization commission reviewing the world food situation today that he was out of sympathy with suggestions that countries could spend their way to prosperity.

He praised the United Kingdom austerity program.

"I think many things are being produced and money spent on them that we would be as well off without," the minister said.

"WE SHOULD HAVE more money spent for food production and less spent for luxuries. Our animals are food, clothing and shelter. We should consider them first with defence taken into account shortly after."

"I would do us to harm if we were to spend more time reading the sermons of Knox and Calvin and not accept the task of spending ourselves into prosperity, as has been suggested several times here."

"The United Kingdom has tried to follow some of these lessons. It accepts austerity right after war, instead of having some spending program followed by more austerity."

Gladiolus, Dahlia Show on Thursday

Following the flower show held in the Market Building last week which was one of the best for some years, the Edmonton Horticultural Society is holding a gladiolus and dahlia show on Thursday, in the Market Building. Entry for competitors is free and there will be no charge for admission. At 9 p.m. all blooms will be sold to the highest bidder. Net proceeds will be handed over to the Veterans Hospital Recreational Council which will use the money for comforts and the benefits of veterans in the Col. Newburn and the Camell Hospital.

Anyone desirous of donating flowers for this sale kindly get in touch with the Secretary of the Edmonton Horticultural Society, Phone 2537.

Their equipment and other requirements in that market.

"In Canada we have been waiting rather patiently for the nations to agree to multilateral long-term agreements or a world food board organization like that proposed by F.A.O.—arrangements which would solve the problems of people living close together but not able to operate as one. We hope some progress will be made at this conference to that end."

But Canada had been compelled to follow another method. The Dominion was closely associated with the United Kingdom.

"And we hope we always will be," he added.

"There is a limit to the time Canada can wait for new world arrangements," he added. "Our farmers are not entirely satisfied. They can see other farmers across the border getting better prices than they, when they have to buy."

Set Up Defence Zone Arctic to Antarctic

QUITANDINIA, Brazil, Aug. 27.—(AP)—A 14-power sub-committee of the Inter-American conference yesterday approved a United States proposal for a mighty defence zone stretching from the Arctic to the Antarctic and guarded by the guns of all the American republics.

The proposal provides for immediate joint military action in the event of an attack upon any portion of the vast area, which includes Canada, Alaska and Greenland.

What action the delegates propose to take towards having Canada join in discussing and signing such a treaty has not yet been discussed.

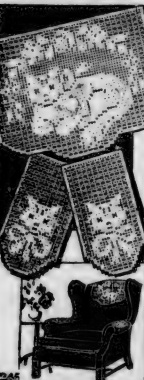

Earlier this week Ambassador Pawley of the United States called on Canadian Ambassador Jean Dey and it was said that Canada's possible reaction to an invitation to join the treaty-making was being canvassed.

TODAY'S proposal will be given to the full 20-power committee on suggestion for inclusion in the historic treaty for mutual defence of the western hemisphere. Will must be controversial question. Will be settled, said completion of the treaty was expected in four months by the week-end.

The vast security region would embrace the North American and South American continents, Canada, Greenland, Alaska, the Falkland Islands, South Orkney Island, the South Polar region (Antarctic), the Sandwich and South Georgia Islands of the Antarctic and 130,000 miles sea belt in both hemispheres and taking in strategic island possessions of the American nations.

UNDER the proposal, "armed attack by any state against the American nation will be considered an attack against all American states, and each one of the American states assumes the obligation of the treaty."

Kitten Crochet

In company with Prime Minister Mackenzie King she visited the "Record Bar," where she and the prime minister had a few minutes comparing musical notes.

Tenant Evicts Owner of House

NEW YORK, Aug. 27.—(AP)—A tenant yesterday succeeded in evicting his landlord. The tenant, Charles Greff, testified in municipal court that when he returned from his vacation Aug. 9 he found his landlord, Mrs. Rose Fitzgerald, had set up quarters in the basement. He said that the landlord was in illegal occupancy of her own house, that she had intruded on his tenancy and that he would direct her removal if she failed to appeal the case by Sept. 2.

Interest Is Shown In Defence Pact

BY GEORGE KITCHEN
OTTAWA, Aug. 27.—(CP)—High government officials yesterday expressed keen but non-committal interest in the inclusion of Canada in a western hemisphere "security zone" being plotted at the Inter-American conference meeting in Brazil.

The proposal, approved today by a Japanese sub-committee of the conference, provides for immediate joint military action in the event of an attack on any portion of the vast area, which extends from the Arctic to the Antarctic and includes Canada, Alaska and Greenland.

It was pointed out here that there had been no indication as to what action the delegates proposed to take towards having Canada join in discussing and signing such a treaty should it be approved.

Officials at the external affairs department—Canada's foreign office—said no approach had been made to the Dominion to join in the discussions or take part in the security plan. There was even no confirmation here of a report from Brazil that Canadian ambassador Jean Dey had been sounded out by Ambassador Pawley of the United States as to Canada's possible reaction.

It was suggested here that the defence treaty, when signed by the 20 American nations attending the conference, might be worded in such a way as to allow Canada to adhere to it at a later date. In that case, the conference could adopt the pact, and then extend an invitation to Canada to enter it.

If such an invitation were received here and the government felt it wise to accept it, Canada's entrance into the American republics' defence pact would have to be made to Parliament, possibly at the session expected to open next January or February.

The parliamentary reception to such a proposal could not be guaranteed at this time but there likely would be extended discussion before approval was given such a step since it would represent a closer tie than ever with the defence measures of the American republics.

Mr. Wilfred Eady, leader of the treasury ministry to Washington that resulted in the sterling freeze, returned to London by air yesterday and was summoned to Downing Street shortly before the meeting broke up.

Anxious for Closer Bond With Soviet

TORONTO, Aug. 27.—(CP)—The Canadian government desires to take every practical step within its power to improve relations between Canada and the Soviet Union, according to a letter received here from L. B. Pearson, undersecretary of state for external affairs, to the National Council for Canadian-Soviet Friendship in a recent exchange of letters. It was disclosed last night.

IN A LETTER of Aug. 10 to Leslie Roberts, national president of the Friendship Council, Mr. Pearson said that the government was anxious to improve relations with the Soviet Union and was willing to meet in person with Soviet officials in Ottawa last May.

The exchange, released by the council, included a reply of Aug. 26 by Mr. Roberts to Mr. Pearson's letter.

Mr. Pearson said the council had proposed that Canada negotiate a permanent friendship agreement with Russia along the lines of the British-Soviet treaty.

BOTH THE UNITED Kingdom and the Soviet Union have recently stated that the treaty of May 26, 1942, requires revision," said Mr. Pearson. "The question of the revision has for some months been discussed between the two governments. No agreement on the text of a revised treaty has been reached."

"In these circumstances it would not appear to be realistic to propose that Canada should negotiate a treaty with the Soviet Union along the lines of the present Anglo-Soviet treaty."

Commenting on this reply, Mr. Roberts said "One look at the map clearly establishes why Canada should take the initiative in seeking with one neighbor on the north an association comparable to that existing with the south."

MR. PEARSON said another reason was that Canada should plan development of the Canadian north to ensure a friendly frontier with the USSR. In comment, he made this quotation from French External Affairs Minister, St. Laurent made in New York last February:

"I have no hesitation in saying that my country would be happy to cooperate in such an enterprise provided it were established upon a proper basis of reciprocity. We are already exchanging meteorological information on a reciprocal basis with our Russian neighbors, and we are already exchanging other useful information."

THE COUNCIL also proposed that Canada should initiate trade discussions with Russia. Mr. Pearson said Russia had not recently

A Bit Confused

LONDON, Aug. 27.—(Reuters)—The present King and Queen are King Arthur and Queen Mary, there are 56 weeks in a year, the sun rises in the west and sets in the east. A psychiatrist told an East London juvenile court yesterday that a 13-year-old boy gave these answers during an intelligence test following arrest for breaking into a local candy store. The court ordered the boy sent to an industrial school.

SECOND DEATH FATAL

LONDON, Aug. 27.—(Reuters)—William Cook died twice, but the second time was fatal. Medical evidence at a London inquest yesterday said Cook's heart and breathing stopped during a hospital operation, but injections and massage brought him to life again. Three days later blood clots formed in his brain and he could not be revived.

WOT! NO WHEELS!

LONDON.—(CP)—A number of combine harvesters were shipped to Britain from Canada without chains, springs and front wheel centres because of production difficulties, said Agriculture Minister Williams. He had been assured adequate supplies of springs and chains had been obtained and some wheel centres are already arriving.

Magnetic Pole

OTTAWA, Aug. 27.—(CP)—The Canadian government yesterday announced that it had found the magnetic pole, the point at which the earth's magnetic field is directed straight down.

The discovery was made by a team of Canadian and American scientists who were working in the Arctic region.

The discovery is of great importance to navigation and to the study of the earth's magnetic field.
